

## Why You Need a Will

1. With a will, it is much cheaper and quicker to administer an estate and obtain probate if required.
2. The estate trustee gets his or her authority from the will and therefore can access certain things even before obtaining probate.
3. A will permits you to determine who will look after your estate after you die.
4. A will permits you to have input into who will look after your children after your die.
6. A will permits you to be creative as to how your assets are dealt with.
